**TECHNICAL SPECIFICATION**

Wear Layer	UV Coating
Dimension	Length 1800 mm
	Width 228 mm
	Total Thickness 9 mm
	Wear Layer Thickness 0.5 mm
	Underlay Thickness 2 mm
Bevel	4-Sided Micro Bevelled Edges
Joining System	Licensed Click System
Supplied	Box Size 1.6416 m <sup>2</sup> / 4 Panels
	Weight 24 kg
Slip Resistance	P4
Impact Sound Reduction (AS ISO 717.2 - 2004)	L'nTw 45
	FIIC 64
	AAAC 5 Star

The acoustic test shown above carried out 20 Jan 2021 by KOIKAS Acoustic Pty

Ltd occurred on a 200-220mm reinforced concrete slab. To view our full testing report, please request by email.

## MAINTENANCE GUIDE

Keep your Hybrid Floor looking its best for longer with these maintenance tips.

### Prevent scratches and dents

Place doormats at all entry and exit points of your home. This helps prevent dents and fine scratches caused by sand, dirt and stones. Be sure to clean your mats regularly.

Fit all movable pieces of furniture with gliders and felt pads.

Avoid using steel wool, nylon scouring pads, scouring powder or abrasive cleaners on your hybrid floor.

### Avoid accidents

Never apply oil, wax, soap or polishing products onto your hybrid floor. They may leave a dull finish, and also make it slippery.

### Keep stains at bay

Only use woven or vinyl-backed mats marked non-staining or colourfast on your hybrid floor.

Some latex and rubber products—like the ones used as backing for mats and rugs, protective foot padding for stools, and wheelchair and trolley wheels—may leave permanent yellow stains on your floor.

If you cannot avoid using such materials, stick with darker colours to make the effect less noticeable.

While hybrid floors are designed to repel most types of spilled liquids, it is still best to clean spillage up with a dry piece of cloth and recommended cleaning solution immediately.

### Prevent discoloration

Exposure to natural and excess artificial light may cause your hybrid floor to appear whiter than areas normally covered by furniture or rugs. To fix this, simply expose the covered areas to light. Everything should even out after a couple of weeks.

### Keep your hybrid floor clean

Clean your floor once per week using a combination of water and a PH neutral cleaning agent.

Be sure to check the manufacturer's instructions prior to using any kind of cleaning product, and always apply such substances onto a piece of cloth instead of directly onto the floor.

Daily cleaning can be done using a vacuum cleaner or soft, dry broom.

### Fix dings and scratches

Remove minor scratches and nicks by cleaning and coating the affected area with furniture scratch cover oil.

## WARRANTY

Our hybrid flooring is subject to a 20-year residential (domestic) wear warranty, 3-year commercial warranty (by request) and lifetime structural warranty.

Our products are guaranteed to be delivered free from defects in material and workmanship and are warranted in their original manufactured condition. Gloss reduction and scratches caused by regular traffic are not covered by warranty. Please contact our sales representative to view full warranty wording, terms and conditions.
